

A hand-drawn landscape design sketch of a waterfront area. The sketch is oriented vertically on the page. On the left side, there is a blue area representing water, with horizontal lines indicating ripples. A curved line separates the water from the land. The land is divided into several zones. At the top, there is a dark grey area labeled 'Bibliotheek'. Below it is a green area labeled 'struikenrij (bv. Viburnum)'. In the center, there is a light green area labeled 'bestaande plataan'. To the left of this area is a brown, textured area labeled 'vlonderterras'. Below the terrace is a green area labeled 'vlonder én vissteiger'. Further down is a light green area labeled 'gazon'. At the bottom, there is a red area labeled 'Nieuwbouw'. The sketch includes various plantings, including a large tree in the center and several rows of shrubs. A curved line at the bottom represents a 'natuurlijke oever met draszonen'. The sketch is drawn with black outlines and filled with various colors: blue for water, green for lawns and shrubs, brown for the terrace, and red for the new building.

Bibliotheek

struikenrij (bv. Viburnum)

bestaande plataan

vlonderterras

vlonder én vissteiger

gazon
