

BIJLAGE 3

Landschappelijk inpassingsplan

A. Bossingel			
	m^2	st / m^2	$aantal$
<i>Plantmateriaal:</i>	275	0,6	165
40% Zomereik (<i>Quercus robur</i>)			66
10% Gewone berk (<i>Betula pendula</i>)			17
10% Zachte berk (<i>Betula pubescens</i>)			17
15% Vuilboom (<i>Rhamnus frangula</i>)			25
10% Wilde lijsterbes (<i>Sorbus aucuparia</i>)			17
15% Kardinaalsmuts (<i>Euonymus europaeus</i>)			25

Plantafstanden:

Diagram illustrating a rectangular pile group with dimensions and spacing:

- Overall width: 1,5 m
- Overall height: 5 m
- Spacing between piles (horizontal): 1,5 m
- Spacing between piles (vertical): 1,5 m
- Arrangement: Driehoeksverband (triangular pattern)

The diagram shows two identical circles, one on the left and one on the right, representing the wheels of a bicycle. A horizontal line segment connects the centers of the two circles. Below this line segment, there is a tick mark at each end and the text "7 m" in the middle, indicating the distance between the centers of the wheels.

1. Schuur:	420 m ²
2. Schuur:	247 m ²
3. Afhang:	45,6 m ²
4. Schuur:	86 m ²
5. Kippenhok	15 m ²
Totaal:	813,6 m²
6. Erfverharding	400 m ²
